**INSTALLATION**

1] Remove any excess packing from the fixture.

2] Connect the fixture leads to the supply leads. TLI stipulates the Black as Line; White as Common; Bare/Green as Ground.

3] For the nipple mount, attach the crossbar(A) to the j-box. Screw the nipple into the cross bar. Place the center hole(B) over the nipple, and install the brass cap provided in the mount kit bag.

4] Check the re-lamp label to ensure that the lamp is the specified wattage.

5] Install lens where applicable.

**MAINTENANCE**

The lens should be cleaned once every 6 months. Repeat the above procedures in reverse to remove the lens. It must be washed in a mild soap solution. DO NOT use cleansers containing bleach. Re-assemble the fixture.

The metal portion of the fixture can be wiped clean as needed using a mild soap solution.

ATTENTION: Avoid moving any exposed wires. If any wires are accidentally disconnected, call a professional to repair.
